SWEDEN
Adams Mann
A pretty wedding occurred at the residence of the officiating clergyman on Tuesday evening, Nov. 22, when Millard C. Adams and Miss Hattie M. Mann both of Sweden were united in holy matrimony. Promptly at 6:30 o'clock the bride and groom, unattended, entered the living room where the double ring service was impressively performed by Rev. W. A. Richardson of the Congregational Church. The groom is a successful farmer in his own town while the bride is the popular daughter of William S. Mann. Both young people are well and favorably known and have the best wishes for a long and happy married life.

Wendell Plummer and family have moved into the Eben Bangs house for the winter. Mrs. Plummer boards the woodmen and some of the mill crew. The mill is nearly ready to start running. Wendell Plummer bought a horse in Norway recently and Chas. Saunders brought him home in his truck. Mrs. James Plummer and children called on her husband Sunday afternoon and stopped all night at Frank Stone's, in Sweden. Wendell Plummer shot the wild heifer that belonged to Jim Plummer of Lovell, Saturday. She was over in Waterford.

They are hauling the mill onto the Louisa Moulton lot in this town. The old Plummer (Binhild and wife) are still at the Plummer house, and are the chores and holding up the loose ends. Master Ethelbert Plummer comes up and keeps them company once in a while. Millard Adams and Miss Hattie Mann were married at Bridgton, Nov. 22, by Rev. W. A. Richardson. They held their reception for their many friends, at Sweden town Hall, Saturday evening, Nov. 23rd, when in spite of the bad weather about sixty people gathered and spent a very pleasant evening in a social way with phonograph music mixed in. A splendid treat of ice cream, cake, candies and cigars were served, and then music was furnished by the Mann family for a social dance. Quite a lot of very useful presents were given by friends. At a late hour after midnight the bride and bridegroom a long and happy life the party broke up and departed to their several homes, wishing that Mr. and Mrs. Adams should stay in Sweden to live in the town of Sweden. For the present they will make their home with his father. Meri Merrill of North Norway is visiting his two sisters and two brothers in town.

Something We Owe

Samuel Insull, controller of the Central Maine Power Co. says:

"I hold that every man owes something besides his taxes to the community in which he lives. The more he has been favored financially and materially by the community, the more he owes. It is a discharge of that debt, a community obligation to do for the community something that it does not make money by. It is an obligation to do this kind of thing, to use his abilities and his opportunities."

That's That
The South Paris High School Athletic Association officially makes the announcement that their activity for the month of December will be devoted chiefly toward the production of a big musical comedy which will be seen at the Association Hall on Friday evening, Dec. 2. The cast will be made up of more than a hundred of South Paris most talented young people.

The Athletic Association has been fortunate enough to book the latest offering of the authors of the John B. Rogers Producing Company of Fostoria, Ohio, an ultra-modern musical play showing under the name of "That's That."

The scenes are laid in one of the deluxe hotels at Palm Beach, Florida. The action has to do with members of the elite social set, in the midst of the usual winter social whirl, seeking diversion at this exclusive resort. The story is of the romance of a sensible son of a prominent New York millionaire, who conceals his identity and wishes to be accepted by the girl he loves because of what he is and not of what he has. There are many interesting sidelights involving true-to-life people; there is a wealth of sure-fire comedy; there are singable tunes galore; extraordinary scenic effects and beautiful costumes of latest design, and many other features which build up a colorful, entertaining and satisfactory show.

Miss Laidi the director, is holding rehearsals every day.

Students Will Present Musical Comedy
The musical production "That's That" will be staged by the Paris High School A. A. at Association Hall, Friday evening, Dec. 2. The opening chorus, "Down Where the Palm Trees Grow," until the running finale, there is an atmosphere of breeze and vim. The plot is based on the love affair of Kenneth Neilson, son of a wealthy bottle manufacturer, who, while posing as a life guard under the name of Kenneth Jones, rescues a girl who falls in love with Eloise Roswick, Palm Beach Society belle. Kenneth does not reveal his true identity, and when his father and sister arrive, he eludes his father, but is discovered by his sister. The story is well sustained and the play teems with interest with matters straightened out to everyone's satisfaction, all know who is what, what is what and "That's That."

This is a John Rogers Company production and is staged under the supervision of their representative.

A public reception to be held by local dealers in part of the national introduction of the new Ford models. In thousands of communities all over the United States tomorrow this new line of moderate priced light automobiles will be introduced to millions of people.

The doors of the showrooms are to be open promptly at 8 o'clock and attendees will be on hand throughout the remainder of the day to explain the new and interesting features of the car which is expected to make a new chapter in automotive history.

The new Ford cars are said to be the product of several years of study and planning by Henry Ford and his engineers in the great Ford laboratories at Dearborn. Mr. Ford himself has announced that "there is nothing quite like the new Ford car" and has stated that it will prove just as great a pioneer in the present field of low price light cars of quality as the famous model T was a pioneer in its field for more than nineteen years.

A large flock of wild geese, headed south, passed over the village, Nov. 24. Old timers say mild weather fooled the birds and ice forming sent them toward a warmer clime.

Richardson Family Reunion
Seventy-Two Present

The traveling public all declare Landlord Cole knows how to take care of and make them feel at home and 'Welcome' the coming and speed the parting guest."

Local dealers have been notified by Ford officials at Detroit that the factories throughout the country are now preparing to produce the new Ford line. South Paris will get its first full description of the new line of Ford automobiles, tomorrow.

Numbers exceeding even the tremendous production records achieved in the manufacture of the Model T line.

Company officials at Detroit also reported their early announcement that production of the new Ford line will make the Model T line obsolete. The manufacture of new parts for Model T replacements will continue to be an important factor of the Ford plants as long as any of the Model T cars are still in operation, the local dealers were advised.

Because of this policy, present owners of Model T Ford cars will be able to keep their cars in perfect order as long as those cars remain in commission.

The performance of these new cars, it is said, will be startling when viewed in the light of automobile performance of the past.
